We are the only organization in the area providing these unique services.

We have positively impacted the community to better understand and respond to the ever-changing needs associated with caring for an aging person.

Due to the organization's popularity and need in the community, Aloha to Aging has expanded its east Cobb County-based services and programs to include participants in a five-county area, including Cobb, Cherokee, DeKalb, Fulton and Paulding. In addition, many of its programs are mobile and can be/are facilitated at locations convenient to participants. Last year the organization served over 3,000 people (including volunteers) from five up to 99 years young, and the numbers are growing!

Our focus is on ***thriving vs. surviving*** in the aging journey, therefore we offer a variety of key components to supporting, educating, encouraging, and communicating with our caregivers and community partners.

Aloha to Aging provides a number of quality programs and services, including:

- ♦ Aloha Day Club (2 locations – east and west Cobb); therapeutically structured, social day respite program for adults 55 and older who are no longer driving and are in need of engaging activities, exercise and socialization outside their residence
- ♦ Monthly support groups focused on Alzheimer's disease, family care givers and Parkinson's disease
- ♦ Two Simulation Programs for both age-health related and cognitive changes
- ♦ Numerous monthly education and weekly specially designed wellness programs specifically aimed to meet the needs and interest of seniors and family caregivers

With the increasing senior population across the nation, especially in the Atlanta/Cobb County area, our unique programs are needed even more to ensure enhanced quality of life for our seniors, their care partners and our community.
